Data Tools: Which languages and data tools do you use?

- **Matlab**
- **Excel**
- **Python**
- **GitHub**
- **R**
- **Command Line**
- **Jupyter notebooks**
- **SQL**

The bar chart shows the number of votes for each tool, with the color coding indicating the rank:
- **First choice**
- **Second choice**
- **Third choice**
- **Unclassified**

The y-axis represents the tools, and the x-axis represents the number of votes.
